BUILD A COURSE IN 4 WEEKS

Prepare & Build

4 Weeks to go...

- Transfer content from a previous course into new course (select specific content, do not copy Zoom sessions or assignments with due dates)
- Reserve e-reserves and add these materials in your Canvas course ([Guide to Reserves](#))
- Decide on a course structure (Import Canvas Template)
- Create a Home page
- Create Modules
- Organize your content
- Add syllabus to your course
- Ensure your comfort level with using all ed-tec tools (i.e. Zoom, Kaltura, Canvas applications, etc.)
- Contact the OTL for assistance

Setup Assessments & Activities

3 Weeks to go...

- Add assessments – quizzes, written assignments, online discussions
- Update late-assignment and attendance policies in your syllabus.
- Set up your gradebook (weighted grading and assignment groups)
- Set due dates for all assignments
- Check! All due dates are correct
- Contact the OTL for assistance

Ready to Go?

2 Weeks to go...

- Verify settings for group assignments (if applicable)
- Check that all course links work
- Adjust settings and course navigation
- View your course in "student view" to go through checking links and pages
- Publish your syllabus and major assignments
- Contact the OTL for assistance

Support & Follow-up

1 week to go...

- Checkout the OTL [Knowledge Base](#) or [Teaching Toolkit](#)
- Book **OTL 1-1 Support** if needed
- Publish your course!
