-- STUDENT SELF-RECORDING DIRECTIONS --

This Quick Reference Guide is designed to provide an overview of how to record yourself in Zoom as part of an assignment for your course.

STEP 1: START AN INSTANT MEETING

- Click on the **Meetings** button in the learning platform found on the left side navigation bar.
- Click Start Instant Meeting in the upper right corner.

•					

STEP 2: START RECORDING

• Typically, the recording will automatically start as soon as you enter the room. If it does not, you can click the Record button in the bottom toolbar. You will be able to pause the recording here or in the upper left corner of the classroom anytime.

• To pause, click the **pause** icon:

Developed based on documentation provided by 2U's Faculty Engagement and Development Team

STEP 3: COMPLETE YOUR ASSIGNMENT

Depending on the requirements for your assignment, there are several features of the live session classroom you may need to use:

- Join Audio: You can connect to the audio as you normally do for class by using the Join Audio Conference by Computer (VOIP) option. This will allow you to use the speaker and microphones built directly into your computer.
- Invite: If you are completing a group assignment, you can invite the other members of your group to your meeting by clicking **Participants** and then **Invite** (once the Participants panel is visible). Then click the **Copy URL** button and send the link to your group members.

- Start Video: Depending on your meeting settings, your video may start automatically. If your video does not start automatically when you enter the live session room, click on the Start Video icon in the lower left corner.
- **Share Screen**: If you need to show visuals (like a PowerPoint presentation), click **Share Screen** in the lower menu. This will allow you to share your entire screen or a particular application (e.g. Word, Excel, etc.)

STEP 4: STOP THE RECORDING AND END THE MEETING

Once you finish your assignment, click the **Stop Recording** button in the upper left corner of the meeting and click **Yes** to confirm you want to end the recording. When you are ready, click **End Meeting** in the bottom right corner of the window, followed by **End Meeting for All**. This will close out your meeting for everyone and make your recording link available.

STEP 5: ACCESS RECORDING LINK

- If sharing the recording with students and faculty that have access to the Learning Platform, leave the default settings and click **Copy to Clipboard**
- If sharing the recording with others that do not have access to the Learning Platform, select the **Publicly** radio button and click **Save**
- NOTE: Be aware that sharing publicly gives anyone with the link access to the recording

STEP 6: SUBMIT YOUR RECORDING LINK

Access the appropriate assignment page in your course found in the learning platform, paste in the recording link or upload a document with the link inside to submit your assignment.

-- STUDENT SUBMISSIONS INSTRUCTIONS --

This guide will walk students through the process of submitting assignments within Atrio and TurnltIn.

Before an assignment is uploaded and submitted to your instructor, your assignments page may include the following:

- 1. A due date
- 2. A yellow button identifying your assignment as **Unsubmitted**
- 3. Instructions and materials you will need to successfully complete the assignment.

If your assignment has TurnItIn enabled, follow the steps outlined on page 3.
